ANOTHER DEFEAT FOR SCRANTON,

Special to the Scrunton Tribune.

ALLENTOWN, July 12 .- Scranton suffered another defeat at the hands of King's Kelly's men today. Fransghan pitched well and received

good support until the sixth inning when the Allentown men began to line the hall out and bring in the runs. Five runs were scored in that inning and thereafter the result of the game was not in doubt. The score: SCRANTON

JAMES BOYS THE VICTORS. They Defeated the Eurekas in an Inter-

the ball park yesterday afternoon be-

tween the James Boys, of Pine Brook, and the Eurekas, of Providence. The former won because of superior battery work. Nolan, late of the Scranton and Altoona teams, was in the box and had the Eurekas practically at his

Regan brothers, the Eureka battery, did good work, but as a pitcher Frank Regan does not belong to the same class as Nolan.

Harry Hop-well was umpire. He gave the Eurekas by far the best of the base decisions, but still there was much kicking by the Providence boys, At one stage of the game Pitcher No-lan and Shortstop Rafferty came almost to blows through a dispute over one of Umpire Hopswell's decisions.

When the game was over, a large number of Eureka enthusiasts gathered around Hopewell and entered loud protests, but there were no hostile demonstrations. Score of the

game:

"Blow! winds, and break the blossoms; Part! clouds, that hide the sun; For the timid feet of a maiden sweet Adown the valley run.

The thorn of the wild rose wounds her; The hem of her skirt is torn, Where the cool gray dew has wet it through
With the tears of a summer morn.

No foot is heard to follow. No eye her path may see There is no car her steps to hear, As she hastens unto me.

O. wild, sweet banks of roses, O. fragrant fields of dew. My darling's kiss is more, I wis, Than a thousand leagues of you!"

NOTES OF THE WHEELMEN. Lee Richardson, the 15-year-old who code half a mile backward while seated on

his machine in the usual position, is unex-celled at that kind of riding. The Massachusetts law requiring the carrying of bells and limiting speed to ten miles per hour goes into effect next Saturday. The day will be celebrated by Massachusetts riders, as will its anniversary.

Now that Raymond McDonald has joined the Class B riders, "Fred" Royce, of the Tourist Cycle club, who recently brose Zimmerman's world record for a quarter mile track, will probably take his place as champion of Class A.

Arrangements are being made by the as-sociated cycling clubs of New Jersey to hold a twenty-five mile road race over the Elizabeth-Cranford course in September. fwenty-five individual and several team prizes will be offered.

Chicago will be represented in the bicy-cle tournament at Asbury Park on Friday and Saturday by Bliss, Lumsden and Gith-ens. Bliss was out of form in California, but is in good condition and intends to do some tall riding at the Asbury Park meet. The twenty horses to be used by Henry Bremminger and "Jack" Alexander in their six day race with Albert Schock and "Jack" Prince, the bicycle riders, at Manhattan Feid next week, naye been selected, and are receiving their preparation for the contest at the Central Park Riding and the contest at the Central Park Riding.

All the crack class B men are rusticating for ten days at Asbury Park. Bald, Titus, Miller, Duke, Kennedy, Helfert, Young, Windle, Bode, Taxis, MacDonald, Steen-son, C. M. Murphy, Culver, Sanger, Tyler, W. F. Murphy, are among the number. Training is done each day on the local track prepatory to Saturday's races.

In discussing the present condition of affairs in the League of American Wheelmer, President Luscomb intimated that within a year the league will cease to have two classes of riders. Class B men will probably be declared professional, and only Class A, or Simon Pure amateurs, will be allowed the privilege of league membership.

tor of the American Wheelmen inquiring as to the authenticity of the report that J. S. Johnson was about to turn profesof S. Johnson was about to tarn processional and go to France to participate in the bicycling contests there, T. W. Eck, Johnson's trainer, replies as fellows from Toronto: "Johnson has no thoughts of turning professional. He is perfectly satisfied with class B and toe L. A. W."

Improvements are being made on bicycles every year, but the latest novelty,
and one which bids fair to become universal in its use, is an inexpensive arrangement for providing bicycles with electric
lamps, the electricity being generated
when the wheel is in motion. The device
consists of a small dyname, inclosed in a
frame and fastened beneath the seat of the
wheel. This frame also contains a train of wheel. This frame also contains a train of gearing mechanism operated by a sporcket wheel and colless chain connected when the rider puts the bicycle in motion. Cir-cuit connections lead from the electric generator to the lamp and a brilliant light is furnished.
